Web Design Experience:

PART DIGITAL DESIGN, 2007-2009

Freelance Web Designer/Developer:

I've created the following websites for clients

- First MRI
 - <http://www.firstmriassociates.com>
 - Cutting edge MRI services
- Eastport Arts Center
 - <http://www.eastportartscenter.com>
 - Community arts center
- Blueberry Point Chefs
 - <http://www.blueberrypointchefs.com>
- Bangor Art Society
 - <http://www.bangorartsociety.com>

I've created the following internal projects:

- Tutorial Quest
 - <http://www.tutorialquest.com>
 - Online tutorial community
- BolducPress
 - <http://www.bolducpress.com>
 - Personal Blog about the business and art of web design
- Custom PHP Framework
 - I built a custom PHP MVC framework inspired by Cake PHP and Code Igniter
- Full Featured Content Management System
 - <http://www.pardigitaldesign.com/projects/cms/>
 - Full featured content management system built off my framework. It allows my clients to add and modify content.

ASAP MEDIA SERVICES, 2006

Computer Technician

- I designed and developed the Musique Lab website
- I built the content management system for Invasive Aquatic Plant Patrol as well as built some of the front-end Flash components.
- I constructed the Flash media players for the Maine Center on Aging website. They included an audio and video player.
- I built a standalone presentation application for the New England Institute of Technology. It was put on thumb drives and distributed to the faculty.

- I supervised a group of four on an online video project.

TREFOIL CORPORATION, 2005

Computer Technician

I worked with an entrepreneur named John Osborn to create custom interfaces and web systems.

ASAP MEDIA SERVICES, 2004 - 2005

Computer Technician

I collaborated with another employee to create the first version of the Slim Goodbody website. I was primarily responsible for the design of icons and navigation.

ASAP MEDIA SERVICES, summer 2000 - summer 2004

Intern

This was an exploratory period where I experimented with various mediums of new media. I focused on design, computer animation and Flash.

I learned a lot about working with a team and what's possible through the use of computer technology.

Computer Skills:

- Scripting in PHP, HTML, MYSQL, JavaScript (including AJAX and JQuery) and Actionscript.
